

Australian States

(1850-1913)

An island continent between the Pacific and Indian Oceans, southeast of Asia. British settlement began in the late 18th century, with six colonies developing - New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania. Each of these states initially issued its own stamps. These colonies united to form the Commonwealth of Australia on Jan. 1, 1901, although each continued to issue its own stamps for a number of years.
