# German Caroline Islands (1900-1914)

A large group of islands in the western Pacific Ocean. The Carolines were purchased by Germany from Spain in 1899. They were captured by Japan in 1914. The western portion of the Caroline Islands became the autonomous republic of Palau in 1981, and the rest of the group became the Federated States of Micronesia in 1986. Japanese stamps were used from 1914 to 1944, and U.S. issues 1944-84.
