

Spanish Antilles

(1855-1873)

The largest island of the West Indies, located south of Florida. Under Spanish rule from 1511-1898, Cuba was the scene of intense revolutionary activity after 1868. In 1902, the Cuban republic became independent. In 1959 a liberal guerrilla movement, led by Fidel Castro, overthrew the repressive government of Fulgencio Batista, who had ruled Cuba since 1952.
